HOLT COUNTY, MISSOURI

"A county in the northwest section of the state, bounded on the north by Atchison and Nodaway Counties; on the east by the Nodaway River; and on the south and west by the Missouri River, and containing an area of 434 square miles. It was named after David R. Holt, who had been a representative in the legislature from Platte Co. It is one of the six counties included in the Platte Purchase", added to Missouri by the Act of Congress in 1836. Prior to that time, this territory belonged to the Indians, Iowas, Sacs and Foxes, who prized it highly on account of its abundance of game, but who in 1836 relinquished their claim to it in favor of the United States, in consideration of the sum of \$7500. White men had been aware of the abundance of game in this region and there were a few settlers in the district now included in Holt County as early as 1838; but permanent settlement in the district did not begin until the year 1841. The Missouri River borders the county for sixty miles, separating it from Kansas and Nebraska on the south and west."

Encyclopaedia of History of Missouri

The families listed in this census have been copied in the same order as given in the original census book. The number at the beginning of each household is the one which was assigned by the census taker. Sometimes it is helpful to note the families near those in which one is especially interested as they may be relatives or old friends. Early settlers often moved in groups.

Holt County played an important part in the settlement of the western part of the United States as almost every family "lost" at least one member to the West. Also, many families moving westward stopped off for a few years in this region.

Too, it is interesting to note that whereas in most of the Missouri Counties the early settlers came to this State from Virginia, Kentucky and Tennessee, a great percentage of the pioneers of Holt County came there from Indiana and Ohio.

The names in this census may not always be spelled as they are today, but an effort has been made to copy them exactly as shown in the original record. Sometimes it was difficult to read the handwriting and when there was doubt whether the name was interpreted correctly, a question mark has been added.
